

## INDEX FOR VOLUME LIII

Due to printing errors, the designation Vol. LII did not appear on the 1990 issues as planned. Nevertheless, the index for 1990, accurately described as the index to Vol. LII, is found at the end of the Fall, 1990 issue. The Volume LIII Index covers the Winter, 1991 issue and the Spring, Summer, Fall, 1991 compound issue. The atypical pattern of issues in 1991 was the result of changes in the marketing and production schedules which have now been resolved.

An asterisk (\*) indicates an illustration on the page number given. Plus (+) indicates two or more following pages carry the reference. (L) indicates the reference is contained in a reader's letter. Titles of articles appear under the author's heading. Subjects and surnames appear alphabetically. While not a complete surname index, names have been included when it seemed likely a student or researcher would find the listing helpful. Individual issues are denoted through the following abbreviations: Winter, 1991=w/91, Spring, Summer, Fall, 1991=f/91.
